

Cassette 1000 Projects

Cassette 1000 Projects

- Opti-myst® flame effect
- Endless flame per daisy chain
- Mains water supply; automatic fill

Opti-myst® flame effect

Real flame effect with stunning flame picture, different heights, fire made out of water.

Installation

For installations in all varieties of furniture or casings, due to mains water supply, especially suitable for commercial applications (hotels, restaurants).

Sizes

The product comes in a 0,5m and 1m size, connect the fires to fire line up to 6 units in a row to operate on one remote control.

Requirements

Need access to a water connection with 0,5 – 8 bar water pressure. Needs ventilation in order to function properly. Regular cleaning is required.

Fuel bed

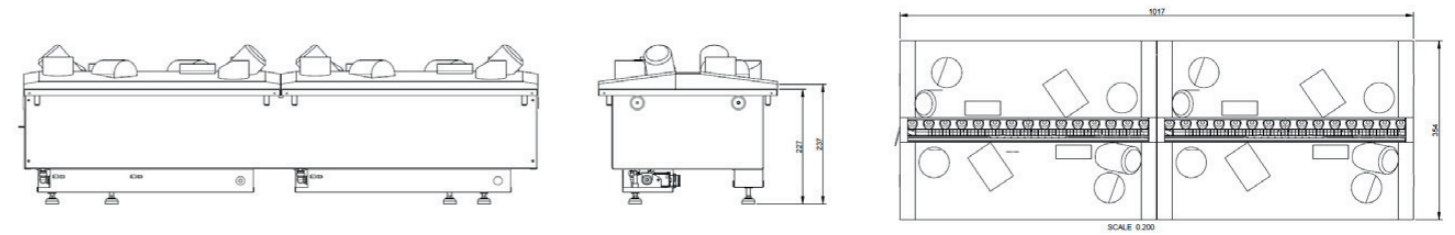

Choice of metal fuel bed as per standard. A LED log set is available as extra part to give authenticity where wanted.

Controls

Bluetooth remote hand set to allow ON/OFF, to adjust the flame height and the crackling noise to be switched on.

Safety

All safe product due to operation with water, no heat, no dust, no ash.
